PROFESSIONAL SUMMARY

Frontend Developer with 3 years of production experience specialising in React, Next.js, and TypeScript. Led end-to-end frontend architecture for **Smart Law Office** — a multi-role legal SaaS platform serving 50+ law firms — owning component design, shared TypeScript schemas, authentication flows, and real-time communication features. Proven ability to ship clean, scalable code in Agile environments, collaborate cross-functionally, and drive measurable performance improvements. Available for remote roles.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript · JavaScript (ES2022+) · React.js · Next.js (App Router) · HTML5 · CSS3

Backend & APIs: Node.js · Next.js API Routes · RESTful API Design · JWT · OAuth 2.0 · Server-Side Rendering · Edge Middleware

State & Data: Zustand · Redux · React Query · Context API · Axios · WebSocket · Real-time Updates

UI & Styling: Tailwind CSS · Framer Motion · GSAP · Responsive Design · Accessibility (WCAG) · Progressive Web Apps

Testing & Quality: Jest · ESLint · Unit Testing · Integration Testing · Cross-browser Testing · Code Review

Tools & Platforms: Git · GitHub · Figma · Paystack · Google Analytics · SEO · Web Performance · Agile / Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer (Lead) · [Cytonisca Ltd — Smart Law Office](#)

Jul 2025 – Jan 2026 · Remote

Led frontend architecture and full-stack feature delivery for a multi-role legal SaaS platform serving 50+ law firms and clients across admin, staff, and client portals.

- Architected a scalable frontend system using Next.js App Router and TypeScript — nested layouts, route groups, and role-based navigation — cutting new developer onboarding time by **~30%**.
- Designed and shipped a real-time communication and calendar system with WebSocket integration, enabling live task and event management across all user roles.
- Built shared TypeScript schemas across frontend and API routes, enforcing end-to-end type safety and eliminating an entire class of runtime integration errors.
- Developed a reusable, typed component library and composable hooks (case creation, document uploads, billing, scheduling), accelerating feature delivery velocity by **~40%**.
- Implemented Edge middleware and secure cookie/session utilities for hardened authentication, enabling consistent role-based routing across admin, staff, and client portals.
- Drove code review practices and Agile sprint planning, collaborating with backend developer to design and consume RESTful API routes and reduce integration friction.

Frontend Developer · [Visionary Services](#)

May 2024 – Jun 2024 · Remote

- Built responsive, accessible UI components with React.js and Next.js for a marketplace platform serving **100+** daily active users.

- ▶ Integrated OAuth **2.0** authentication and third-party APIs to power real-time data updates, achieving **99.9%** security compliance.
- ▶ Reduced production bugs by **15%** through comprehensive unit and integration testing with Jest.
- ▶ Improved application scalability under load via lazy loading and code splitting strategies.

Frontend Developer · [Zentrix Innovative Labs](#)

Nov 2023 – Mar 2024 · Remote

Delivered frontend features for a full-stack ed-tech platform offering programming courses, working in an Agile team alongside design and backend engineers.

- ▶ Reduced page load time by **25%** through code splitting, image optimisation, and performance monitoring — directly improving course engagement and retention metrics.
- ▶ Improved cross-browser compatibility by **20%** through systematic debugging and responsive design, expanding addressable user base.
- ▶ Achieved **95%** wireframe-to-code accuracy collaborating in Figma, reducing design revision cycles and shortening delivery timelines.
- ▶ Integrated secure payment features using REST APIs and modern JavaScript patterns.

Freelance Frontend Developer · [Independent](#)

Jan 2023 – Oct 2023 · Remote

- ▶ Delivered **15+** web projects for startups — primarily in legal and professional services — from architecture to deployment, maintaining **100%** client satisfaction.
- ▶ Built high-converting landing pages for **10+** startups, averaging a **35%** increase in conversion rates through optimised user flows and performance-first design.
- ▶ Increased user retention by **40%** across client products through improved UX, responsive design, and faster page performance.

NOTABLE PROJECTS

Smart Law Office (*Next.js · TypeScript · WebSocket*) — Multi-role legal SaaS — real-time calendar, document management, billing, role-based dashboards. Led full frontend architecture.

Tripodis Legal (*React.js · Next.js · SEO*) — SEO-optimised law firm website built for lead generation and professional online presence.

Mini-Store (*Next.js · State Management*) — E-commerce app showcasing best practices in React, state management, and UX design.

Event Management Dashboard (*React.js · Tailwind CSS*) — Responsive event management dashboard with real-time data display and intuitive UX.

EDUCATION & CERTIFICATIONS

B.Sc. Microbiology · Redeemer's University

2016 – 2020

Meta Front-End Developer Professional Certificate · Meta / Coursera
